Big Fish Sponsor

In Memory of Andrew J. Kerr

December 7, 1938 – February 22, 2017

2<sup>nd</sup> Big Fish Sponsor

**\$7,500 guaranteed** payback to 1st place  
**\$3,000 guaranteed** payback to 2<sup>nd</sup> place  
**\$1,500 guaranteed** payback to 3<sup>rd</sup> place  
**\$1,000 guaranteed** payback for big fish of the tournament  
**\$500 guaranteed** payback for 2nd big fish of the tournament  
**90% payback** to one in every seven boats  
**Five fish limit-waivers** provided at check-in

**\$250 cash drawing following tournament - must be present to win. Tournament boaters only**

*Registration Available Online*

**NEFAR Charity Bass Tournament Benefiting Haven Hospice**

Register online by credit card at [www.NEFARbass.org](http://www.NEFARbass.org) with completed entry form. Online registration will close at 5 pm, April 26, 2018. To register by mail, send completed registration form with \$120 check made payable to NEFAR Charitable Foundation; Mail to: NEFAR, 1723 Reid St, Palatka, FL 32177, Attn: Savannah Williams. Boat numbers will be assigned and posted on website within 24 hours of NEFAR receiving a complete and paid registration form. Website: [www.NEFARbass.org](http://www.NEFARbass.org). NEFAR is not responsible for lost registrations mailed through the USPS. Questions? Call Glenn East. (904) 613-8568 cell.

# NEFAR Charity Bass Tournament

## Tournament Payouts:

- \$7,500 guaranteed payback to 1st place in tournament
- \$3,000 guaranteed payback to 2<sup>nd</sup> place in tournament
- \$1,500 guaranteed payback to 3<sup>rd</sup> place in tournament
- \$1,000 guaranteed payback for biggest fish (bass) of the tournament
- \$500 guaranteed payback for 2nd biggest fish (bass) of the tournament
- 90% payback to one in every seven boats
- \$250 cash drawing following tournament - must be present to win. Only tournament boaters may participate.
- "Average Joe" will pay a total of \$1,000.00 as follows:
  - \$500 will be paid to the boat with the weight nearest to the Average Joe weight number determined from the final weigh-in.
  - \$300 will be paid to the boat with the weight 2nd nearest to the Average Joe weight number determined from the final weigh-in
  - \$200 will be paid to the boat with the weight 3rd nearest to the Average Joe weight number determined from the final weigh-in.

## "Average Joe" Concept:

This concept will reward three boats who, for whatever reason, have an average catch for that particular day. Every angler has good days and many have average days. This concept gives those having an average day an opportunity to win some money, as no one knows what the "Average Joe" number will be until all fish are weighed in.

## "Average Joe" Number Calculation:

The Average Joe number will be determined as follows: Divide the total weight of all fish weighed by the total number of fish crossing the scale to identify the weight of the average size fish for the day. Then divide the total number of fish weighed by the total number of boats weighing fish to identify the average number of fish caught and weighed per boat. Then multiply both of the previous results together to determine the average weight number for the day (Average Joe Number).

## Formulas:

Average size fish = total weight of fish crossing the scale/total number of fish weighed

Average number of fish per boat = total number of fish weighed/number of boats weighing fish

Average Joe Number = average size fish x average number of fish per boat

Example of Tournament Weigh-in: 50 boats registered to fish the tournament with 30 of those boats actually weighing fish. There were 140 fish weighed for a total weight of 323.5 lbs recorded during the weigh-in. The Average Joe Number calculation then looks like this:

Average size fish =  $323.5 \text{ lbs} / 140 = 2.31 \text{ lbs}$  average size fish

Average number of fish per boat =  $140 / 30 = 4.67$  average number of fish weighed per boat

Average Joe Number =  $2.31 \text{ lbs} \times 4.67 = 10.79$  (Average Joe Number)

## Average Joe Winner:

The boat whose aggregate total weight is nearest the Average Joe number will be determined to be the winner of \$500.

The boat whose aggregate total weight is 2nd nearest the Average Joe number will be determined to be the winner of \$300.

The boat whose aggregate total weight is 3rd nearest the Average Joe number will be determined to be the winner of \$200
